

SCHOOL DISTRICT OF MAYVILLE

723.3

EMERGENCY SCHOOL CLOSINGS

In case of inclement weather, ice conditions or other emergency, the District Administrator is authorized to close schools.

The District Administrator may cancel school for the entire day, delay the start of school for the day or dismiss schools early. When making school closing decisions, the District Administrator shall consult with resource personnel appropriate to the particular type of emergency situation (e.g., transportation supervisor, highway departments, weather service, public health officials, law enforcement officials, fire department personnel, maintenance personnel, administrators in adjoining school districts).

The District Administrator shall contact the following radio stations regarding school closings: WMDC (98.7 FM); WBEV (1430 AM) and WXRO (95.3 FM) - Beaver Dam; WMRH (1170 AM) - Waupun; WBKV (1470 AM) and WBWI (92.5 FM) - West Bend; and, KFIZ (1450 AM) - Fond du Lac.

School closings will affect the students and teachers. All regular non-teaching employees are expected to be at their work assignment on such days. The District Administrator may authorize specific employees to leave or not to report if he/she believes there is danger to their physical well being. Make-up days missed because of school closings will be approved according to the procedure outlined within the employee negotiated agreement.

Schools are closed because of the concern for students' health and safety, and no events shall be scheduled when school is closed. When schools are closed because of weather conditions, there shall be no practices, workouts or any activities for any students in any part of the school buildings, regardless of where the student lives. Building principals shall bring this to the attention of the faculty each year, and shall publish this information in their respective handbooks.
