

SCHOOL DISTRICT OF MAYVILLE

ADMINISTRATIVE DIRECTIVE 851

SALE OF GOODS ON SCHOOL PROPERTY

It has come to my attention that I must clarify the district's position on the various items being sold by staff members (craft items, cosmetics, food items, etc.) in our schools. Please be advised that, in my opinion, the above policies speak to and are written to protect students from public and private solicitations on school property. These policies were not intended to govern incidental sales by staff members.

However, staff members may not advertise items or solicit sales for which they will receive a profit. Advertising that implies or suggests the advertiser will receive a profit is not allowed in our school buildings. If you have any questions about particular activities please speak with your principal for clarification.

October 30, 2003

Ronald Bieri, Superintendent
